C7

```
C7                              F7
   Seems I got to have a change of scene
C7                                   F7
   Cuz' every night I have the strangest dreams
C7                                 F7
   Imprisoned by the way it could have been
C7                                F7
   Left here on my own or so it seems
C7                                F7
   I got to leave before I start to scream
C7                                          F7
   But someone locked the door and took the key
```

            C7            F7
You feelin' alright?
                     C7               F7
I'm not feelin' too good myself
                    C7             F7
Oh no, you feelin' alright?
                     C7                      F7
I'm not feelin' too good myself
```

C7                                F7
   Boy you sure took me for one big ride
C7                             F7
   Even now I sit and I wonder why
C7                                 F7
   And when I think of you I start myself to cry
C7                                      F7
   I just can't waste my time I must get dry
C7                                 F7
   Got to stop believing in all your lies
C7                                        F7
   Cause there's too much to do before I die

   Don't you get too lost in all I say
C7                                          F7
   But at the time you know I really, felt that way
C7                                          F7
   But that was then and now you know it's today
C7                                       F7
   I can't get set so I guess I'm here to stay
C7                                       F7
   Until someone comes along and takes my place, yeah
C7                                          F7
   With a different name, yes, and a different face
